

Our harnesses and leashes have been developed with best fit and wearability in mind.

## Types of harnesses

### Classic harness

The classic harness with 4 clips

This harness has 5 adjustment options (neck - left right, stomach - left right and on the chest) and does not have to be put on over the head. The 4 clips make it suitable for dogs that for some reason do not want a harness over their heads.

The harness has a back piece for a dog with a normal back length and shoulder proportion.

## The classic harness with 2 clips

The same harness is also available (April 2024) without clips on the neck. Many dogs do not mind wearing a harness, and for these dogs it is not necessary to have extra pressure points on the neck straps. When there is a sudden pull on the leash, every piece of 'hardware' plays a role in making the dog comfortable.

## The SHORT harness

### SHORT harness with 4 clips

Because some dogs have a shorter back, chest or shoulder, a harness with a shorter back piece is important. The back piece will then no longer bulge when they look up. The belly band also does not rest on the floating ribs, which causes discomfort.

The version with 4 clips is for dogs that prefer not to have anything put on over their heads.

### The SHORT harness with 2 clips (April 2024)

There is also a version of the short harness with only clips around the belly. This harness therefore has no unnecessary pressure points for dogs that do not mind putting a harness on over their heads.

*Our harnesses are made in the Netherlands, by Dutch employees, who make the products with the greatest care.*

## Leashes

Our leashes are lightweight and are available in many designs. Because we like to give dogs freedom, even on a safe leash, we have leashes in different lengths and types:

**Adjustable and not adjustable.**

**3, 4, 5, 8 of 10 meters.** Do you need other lengths?  
This can be done for larger quantities upon request.

**15, 20 and 25 mm** width of webbing. Because every dog is different, and every person likes something different.

## Colours

We have different types of webbing, so there is something for everyone. We will also add new or temporary colors from time to time.

Our regular colours and availability in sizes:

Name	Colour	Harness sizes	Width lines	
Black		XXXS t/m XL	15, 20 and 25mm	
Teal		XXXS t/m XL	15, 20 and 25mm	
Khaki		XXXS t/m XL	15, 20 and 25mm

## History and purpose

The studio started as Atelier d'Ellis, by Nelis Verhoeven and Ellen Huijs. The company was acquired at the end of 2023 and rebranded as B-Friend. At the beginning of 2024, both the d'Ellis and B-Friend names will appear on our products and communications, but d'Ellis will be slowly phased out.

Our goal is to offer a product that is widely applicable, simple and therefore affordable for everyone. We do not want to disadvantage any group: dogs, dog people, middlemen and certainly not seamstresses. Satisfaction throughout the entire chain is our goal.

B-Friend is part of group of companies led by Barbara Dorren. The knowledge she gained in her training ensures a continuous critical view to support the well-being of dogs.

The other companies that are part of this group are:

B-Dog - Behavioral guidance, massage, courses

4dox Netherlands - high end custom harnesses, custom functional clothing for dog people
